

Connected Car

A Company by Uduria
London, UK.

Task

1. Create a speedometer mobile app that measures the speed of a moving vehicle.
2. Add feature: Measure the time the vehicle takes to go from 10km/h to 30km/h, and write that time on the screen.
3. Add feature: Measure the time the vehicle takes to go from 30km/h to 10km/h, and write that time on the screen.

Current Speed

30
kmh

From 10 to 30

10
Seconds

From 30 to 10

12
Seconds

What to use?

- > Flutter (Preferred).
- > Android Native.

Submit

- > Upload the app to GitHub.
- > Send the link along with a working apk, your CV, and a 1 page documentation to:
mohamed.abdalla@uduria.com
- > Write in the email subject **Connected Car - Your Name**.
